Given adequate advance notice, are you in favor of a mid-August school start date for future school years?

4,093 responses

Why or why not?

2,729 responses

Longer winter break

Longer winter break

Too hot

Vacation plans

We find arguments in favor to be weak, the current schedule is much better and more inline with schedules of local big universities.

Please don't make this change! We have 3 children in SDUSD. This would be a huge disappointment to our family. The late August start date is one of our favorite things about being in SDUSD. (See response below.) Also, 3 weeks at Winter Break is too long! If we had three weeks off for break, many families would choose to vacation the 3rd week when it is less expensive to travel and not as crowded. I think this would increase COVID exposure instead of decrease it! If you would like to change the vacation schedule, a week off in October would be much more desirable than 3 weeks off in winter. We would also like to see a week off in the summer.

Any other thoughts? This entry will be forwarded to SDUSD but may not be posted in its entirety on our website summary.

How was this distributed? I received notice from a public Facebook page, not the district- this is unprofessional. 5 months is entirely inadequate to change summer plans - this is also unprofessional. 3 week break is completely unsupportable for working parents - this is unacceptable.

You suck.

None.

First, we already have summer vacations planned and booked in August. It is too late
